DETAILED ACTION

This Office Action is in response to Amendment A filed on December 9, 2002.

Status of Claims

Claims 7-9 are pending. Claims 1-6 have been cancelled.

Specification

The substitute specification submitted on December 9, 2002, has been entered.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 7-9 are rejected under 35 U.S.C. 102(e) as being anticipated by US 2001/0047750 to Ishida.

In reference to Claims 7-9, Ishida teaches an apparatus for fabricating a Group III-V nitride film by a MOCVD method comprising:

- a reactor (10) in which a MOCVD reaction between a Group III raw material gas (TMA) and a Group V raw material gas (NH₃) is generated (See paragraphs 39-48)
- a susceptor (15) to hold a substrate (20) (See paragraphs 39-48)

- a heater (18) to heat the substrate to a predetermined temperature via the susceptor (See paragraphs 39-48)
- wherein at least one of the interior walls of the reactor (10) and the susceptor (15) is coated with an $\text{Al}_x\text{Ga}_y\text{In}_{1-x-y}\text{N}$ film ($0 \leq x \leq 1$, $0 \leq y \leq 1$ and $0 \leq x+y \leq 1$) or an AlN film (17), which is heated to a temperature of 1000 °C or more (See paragraphs 39-48)

Priority

3. Applicant cannot rely upon the foreign priority papers to overcome this rejection because a translation of said papers has not been made of record in accordance with 37 CFR 1.55. See MPEP § 201.15.

Response to Arguments

4. Applicant's arguments with respect to Claims 7-9 have been considered but are moot in view of the new ground(s) of rejection.
